ADELAIDE

### BUILDING OPERATIONS

SOUTH AUSTRALIA

JUNE QUARTER 1967

SCOPE This bulletin gives information about "new building" operations in South Australia; in addition to a summary for the period 1963 to June 1967 it shows details concerning houses and flats, other buildings, employment in the industry, and dwellings in local government areas. The information has been compiled from returns collected from all builders of new buildings.

DEFINITIONS New Building: Alterations and additions of \$10,000 and over to existing buildings are included, but minor additions, alterations, repairs and renovations, and all construction activity such as railways, bridges, earthworks, water storage, etc., are excluded.

Value: All values shown exclude the value of land and, except in Table 4, represent the value of buildings upon completion (see also "Completion"). Values shown in Table 4 represent the amount of work done on new buildings during the period and are not subject to the fluctuations from period to period noted in Table 3 in the values of "new buildings other than dwellings"; these fluctuations are partly the result of the unequal incidence of individual large contracts.

Commencement: A building is recorded as commenced when work on the foundation has begun.

Under Construction: Once commenced, even though work on it may have been temporarily suspended, a building is classified as "under construction" until its "completion".

Completion: A building is regarded as having been completed when the contractor has fulfilled the terms of the contract or in the case of an owner-built house when the dwelling is either completed or occupied (whichever occurs first). However, the value in all cases is that of the building as a finished project as planned.

COMMENTS 2,014 houses were commenced and 2,219 were completed during the three months ended June 1967. Commencements were 323 more than in the March quarter 1967 but 421 less than in the June quarter 1966. Completions were 278 more than in the previous quarter but 430 less than in the June quarter 1966.

The number of flats commenced (395) was 114 more than in the preceding quarter and 7 more than in the June quarter 1966. The total of 9,693 dwellings (houses and flats combined) commenced during the year ended 30 June 1967 was the lowest since 1961-62.

Persons recorded as employed on all jobs of builders of new buildings at 30 June totalled 12,467. This is 35 more than on 31 March 1967 but 895 less than on 14 December 1966.

(a) Mainly of weatherboard construction.

(b) Brick and stone veneer not separately recorded, included with brick, concrete and stone.

OWNER-BUILT HOUSES

Of the 8,372 houses commenced during 1966-67, 529 (value \$4,520,000) were owner-built, i.e. being erected by the owner or under the owner's direction by sub-contract or day labour but without the services of a contractor responsible for the whole job. During June quarter 1967 there were 111 (\$940,000) owner-built houses commenced and 145 (\$1,326,000) completed.

Electricians	732	745	804	720	815	827	707	675
Plumbers	1,147	1,363	1,353	1,238	1,196	1,172	1,064	1,074
Builders' labourers	1,756	1,889	2,193	1,866	1,859	1,819	1,679	1,779
Other	2,345	2,785	2,930	2,629	2,511	2,485	2,419	2,590
Total	12,948	14,532	15,267	13,506	13,342	13,362	12,432	12,467

Note: Building employment covers all contractors and sub-contractors and employees of contractors, sub-contractors, and Government instrumentalities, who on the day specified were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs, and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.
